Due to the density of corporations located in Morris County, the technology sector has become one of the largest employment clusters in the county—with more than 22,000 jobs. Jobs for this sector increased by 1,933 (9.5%) from 2016-2020, outpacing the national growth rate of 7.8%. Additionally, the technology industry is projected to increase by 812 jobs (3.6%) from 2020-2025. The regional job concentration for information technology and telecommunications is 3.10 (65%) times the national job concentration.
